

VHB Tapes

3M™ VHB™ Tapes all acrylic construction provides strength and durability in extreme applications

3M™ VHB™ Tapes resists stress, fatigue, vibration, heat, cold, temperature cycling, moisture, solvents and UV light.

Benefits

- Convenient alternative to screws, rivets and other mechanical fasteners
- Closed cell foam carrier provides good cushioning and conformability as well as a moisture and air seal
- Ideal for a wide range of electronics products and has UL Listing 746C
- Excellent for bonding metals and other high surface energy materials
