

Heavy duty Filament tape

High performance. Polypropylene backing reinforced with glass filaments. Typical 170 lb/inch width tensile strength for light- to medium-duty bundling, reinforcing, and palletizing. Good initial and long-term adhesion with good shear strength.

Polypropylene backing provides excellent resistance to nicks, abrasion, moisture, and scuffing. Glass filaments reinforce tape for reliable strength. Specially formulated rubber resin adhesive bonds with minimum rubdown. Good initial and long-term adhesion with good shear strength. Applications:- Light to medium-duty bundling, reinforcing, palletizing, and strapping. Typical Physical Properties: Low 3% elongation at break to help keep bundles tight; 60 oz/inch adhesion to steel; Bar codes, type and graphics show through translucent backing; Standard widths: 9, 12, 18, 24, 36, and 48 mm
